Field of more than 25,000 daffodils in bloom at New England Botanic Garden

BOYLSTON, MA, April 14, 2025 – One of [New England Botanic Garden at Tower Hill's](#) most highly anticipated botanical spectacles of the year is almost here. The [Field of Daffodils](#), a stunning seasonal display of more than 25,000 blooming daffodils (*Narcissus* cvs.) stands ready to dazzle visitors from across the region. The Field of Daffodils was first planted in 1991, and thanks to the spreading nature of daffodils, it has grown into a jaw-dropping sea of yellow blooms in the decades since. Today, a variety of cultivars can be found, the earliest of which, 'Rijnveld's Early Sensation,' began showing color in March. While blooms are weather dependent, the Garden expects the field to be at its most vibrant within the next 10 to 14 days.

Enjoy this special springtime experience before it's gone. New England Botanic Garden is open seven days a week from 10 a.m. to 5 p.m. Follow the Garden on social media @NewEnglandBG for bloom updates and visit <https://nebg.org/spring-at-the-garden/> to learn more about other exciting arts, culture, and education programs coming to New England Botanic Garden this spring.

To schedule a visit or speak with the Garden's horticulture experts about the Field of Daffodils or other springtime blooms, contact Public Relations Manager Liz Nye at lnye@nebg.org or 508-866-9611 ext.143.
