"We can never say thank you enough to Amelia...I'm still amazed with her professionalism, her attention to details, and how much she put into making sure we got the day that we wanted. She's truly amazing! Most of all, the venue is breathtaking. I felt we were surrounded in beautiful flowers, textures, and greenery...I couldn't recommend NEBG and Amelia enough. Best decision we made. "

Equipment: Ceremony and reception chairs and a variety of tables are provided by NEBG at TH for your wedding.

Membership: A membership to the gardens at the “friend” level is included in the rental rate.

Ceremony Locations

Secret Garden – The Secret Garden is our most popular ceremony location. This intimate garden is located on the far south end of the property at the bottom of the Lawn Garden staircase below the pergolas. By late spring, annuals are planted and perennials begin to bloom. This garden space is at its most lush and colorful from July to September. The fountain, pergolas, and staircase in this garden space make for a stunning backdrop.

Lawn Garden – The Lawn Garden has an open and airy feel while still positioned in the heart of the property. From May to June, spring bulbs add a pop of color to the surrounding garden beds and flowering trees are in bloom. From July to September, summer perennials take over providing lush borders to the large central lawn.

Limonaia Conservatory – The Limonaia is a conservatory (or greenhouse) designed for our tropical and sub-tropical plants. From late-May through early-September, these plants are moved from outdoors around the property. This leaves a primarily emptied room available to host your ceremony. During the on-season, this space is not air-conditioned, but is ventilated by the windows and doors. The Limonaia serves as the backup plan in case of inclement weather, but if you love the space, it can be utilized as your primary ceremony location.

Cocktail Hour Locations

Great Hall – The Great Hall houses our daytime café, the Farmer and the Fork, year-round, but in the evenings it is transformed into the inclement weather backup space for cocktail hour. With draped fabric and some décor, the space quickly takes on a whole new look! The Great Hall terrace also has one of the best sunset views on the property.

Winter Garden – This garden space features plants with interesting bark and berries as well as evergreens and the Garden's iconic turtle fountain. Many of the tropical and subtropical plants from the conservatories live in this garden for the summer months. The garden is lit up after sunset with soft white up-lighting throughout the plant beds, in the fountain, on railings, and on conservatory walls. Once guests move into the Orangerie for reception, they can continue to enjoy this garden space.

Reservoir Room – A brand new space built in 2024, the Reservoir Room offers a naturally lit room with floor-to-ceiling windows and a ceiling adorned with elegant copper details. Glass doors lead out onto a terrace with stunning views of the Wachusett Reservoir. A loop hearing system integrated into the room makes this an accessible space for guests. This room can serve as the inclement weather backup location for either ceremony or cocktail hour.

Orangerie – The Orangerie, is a conservatory (or greenhouse) designed for our tropical and sub-tropical plants. From late May through early September these plants are moved outdoors. This leaves a primarily emptied room available to host your reception for up to 120 guests. There are multiple permanent plant fixtures within the space including vines, palms, and succulents. During the on-season this space is not air conditioned, but is ventilated by the windows and doors. Included in our venue fees are 60" round tables that seat 8 to 10 guests comfortably. Fruitwood Chiavari chairs with white cushions are also included for reception. A typical layout of the room includes a centered dance floor, guest tables, and a sweetheart table or head table centered under the doors to the Winter Garden. The DJ or band is placed near the dance floor along the brick walls where power is located. The in-house lighting on the ceiling and in the floor is all soft white, similar to the Winter Garden. Once the sun goes down, the space takes on a magical feel that guests enjoy on the dance floor all night long.
