ORCHID IDENTIFICATION GUIDE

# ORCHID ANATOMY

# *Aliceara* (al-iss-ee-AR-uh) Memoria Donald Yamada

**Synonym:** *Beallara* Memoria Donald Yamada

**Parents:** *Aliceara* Jay Yamada x *Oncidium* Fort Point

**Originator:** J.W. McCully, 2014

**BEGINNER**

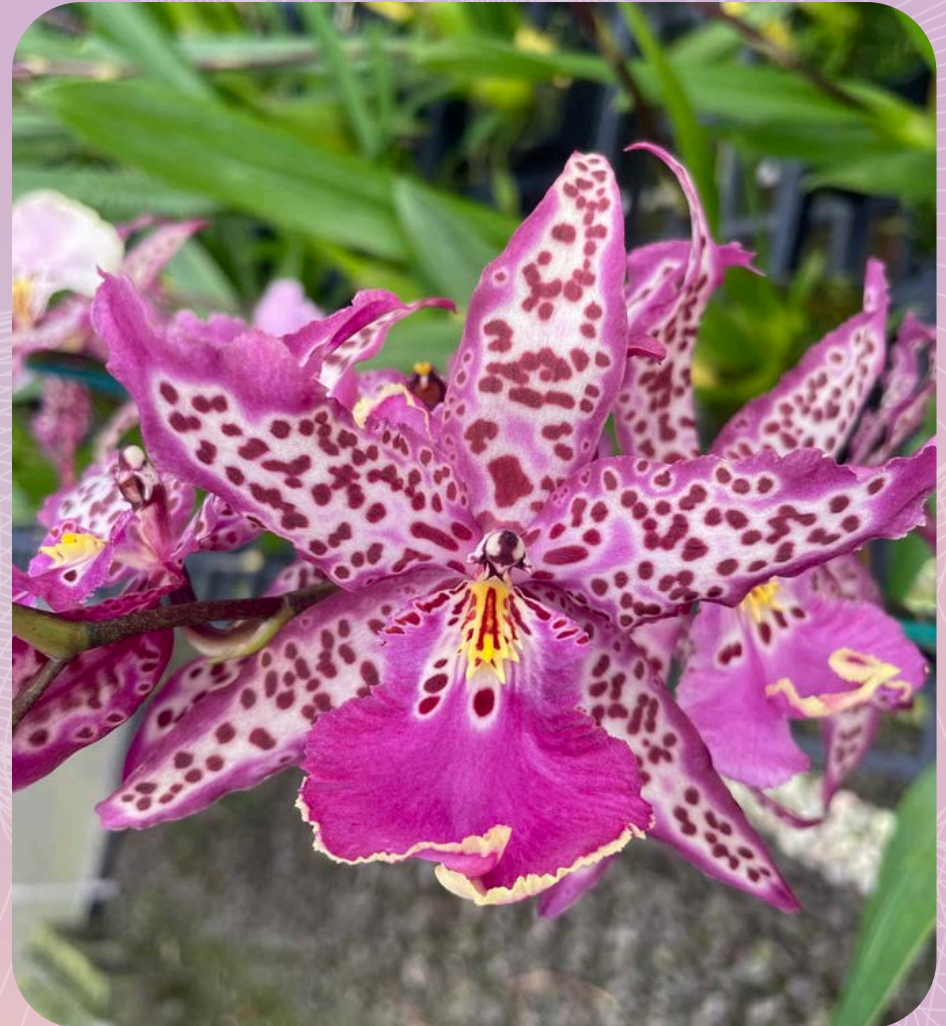

**LIGHT** Bright light, do not place in direct sun.

**WATER** Water every ten days or when media is partially dry, after flowering, give a 2–4-week dry period.

**CLIMATE** Winter: 60°F. Summer: 80°F.  
Humidity: 50%.

**CARE** Fertilize once a month and repot in an open, free draining bark mix.

# *Aliceara* (al-iss-ee-AR-uh) Tropic Lily 'Chocolate Drop'

**Synonym:** *Beallara* Tropic Lily 'Chocolate Drop'

**Parents:** *Oncidium* Nichirei Lilac x *Aliceara* Tropic Splendor

**Originator:** J.W. McCully, 2007

**BEGINNER**

**LIGHT** Bright light, do not place in direct sun.

**WATER** Water every ten days or when media is partially dry, after flowering, give a 2–4-week dry period.

**CLIMATE** Winter: 60°F. Summer: 80°F.  
Humidity: 50%.

**CARE** Fertilize once a month and repot in an open, free draining bark mix.

# ***Brassocattleya*** (brass-o-KAT-le-a) Morning Glory

**Parents:** *Brassavola nodosa* × *Cattleya purpurata*

**Originator:** Del-Ora, 1958

**INTERMEDIATE**

**LIGHT** Bright light to full sun. Grows best in a South facing window.

**WATER** Water every 7-10 days with water above 50°F, allow to dry out between watering.

**CLIMATE** 60°-70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize every two weeks in summer and once a month in winter. Repot every 1-2 years in a medium to coarse bark mix.

# ***Brassocattleya*** (brass-o-KAT-le-a) Walter August

**Parents:** *Cattleya* Summer Spot × *Brassavola nodosa*

**Originator:** L. Newton, 2022

## **INTERMEDIATE**

**LIGHT** Bright light to full sun. Grows best in a South facing window.

**WATER** Water every 7-10 days with water above 50°F, allow to dry out between watering.

**CLIMATE** 60°-70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize every two weeks in summer and once a month in winter. Repot every 1-2 years in a medium to coarse bark mix.

# *Cattleya* (KAT-lee-ah) Fire Fantasy 'Royalty'

**Synonym:** *Sophrolaeliocattleya*

**Parents:** *Cattleya* Hawaiian Fantasy x *Cattleya* coccinea

**Originator:** H&R nurseries, 1999

## INTERMEDIATE

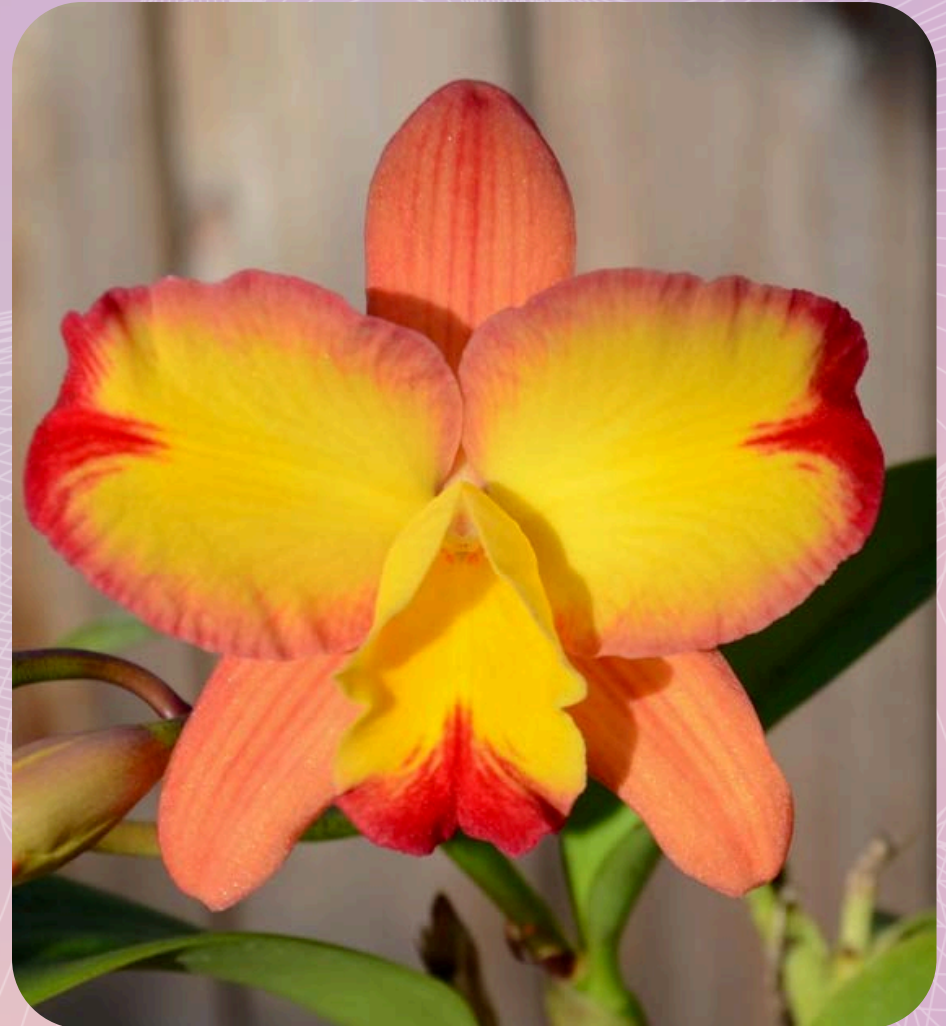

**LIGHT** Bright light to full sun. Grows best in a South facing window.

**WATER** Water every 7-10 days with water above 50°F, allow to dry out between watering.

**CLIMATE** 60°-70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize every two weeks in summer and once a month in winter. Repot every 1-2 years in a medium to coarse moss/bark mix.

# *Cattleya* (brass-o-KAT-le-a) Pink Freckles

**Parents:** *Cattleya* Wailea × *Cattleya* aclandiae

**Originator:** C.K. Suzuki, 2006

**INTERMEDIATE**

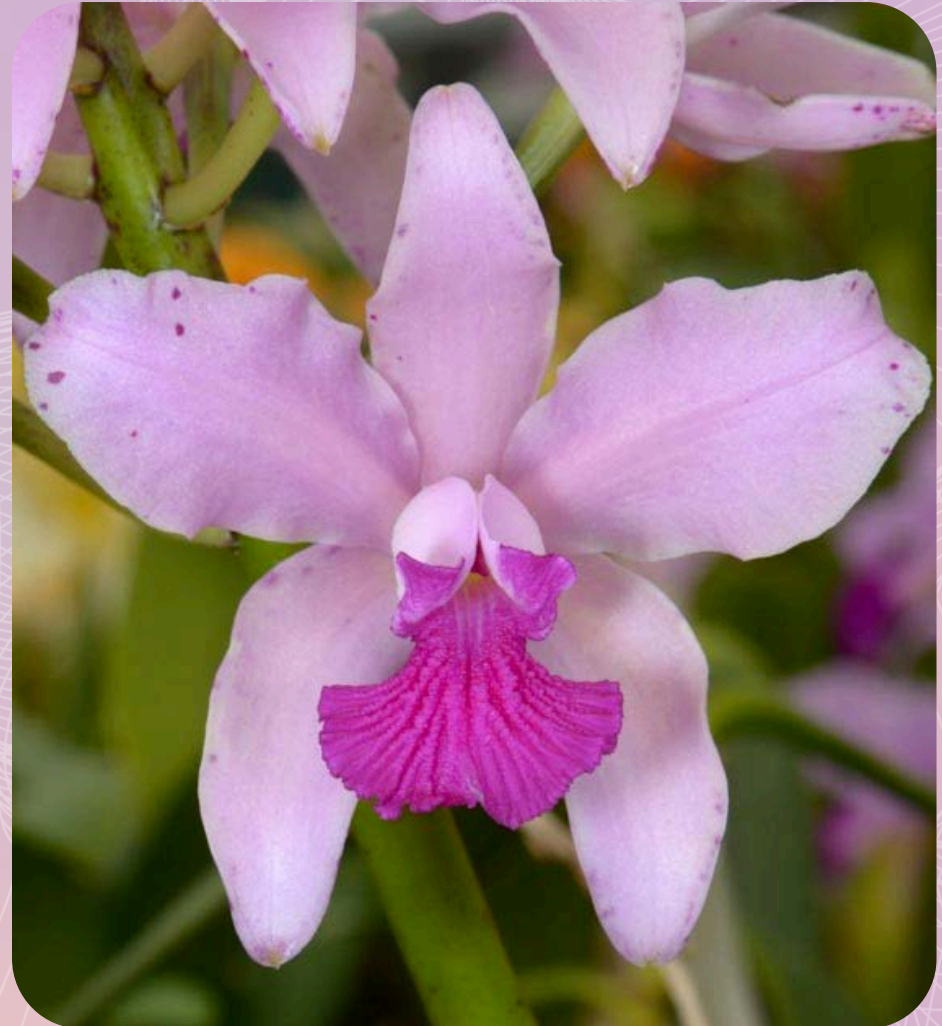

**LIGHT** Bright light to full sun. Grows best in a South facing window.

**WATER** Water every 7-10 days with water above 50°F, allow to dry out between watering.

**CLIMATE** 60°-70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize every two weeks in summer and once a month in winter. Repot every 1-2 years in a medium to coarse bark mix.

# Caulocattleya (Kawl-o-KAT-lee-ah) Spring Fragrance 'Paradise'

**Parents:** *Cattleya* Hawaiian Wedding Song × *Caulathron bicornutum*

**Originator:** Hawaii Hybrids, 2006

**EASY**

**LIGHT**

Some sun, bright light from an East, West, or South facing window.

**WATER**

Water every 7-10 days.

**CLIMATE**

60°-70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE**

Fertilize every two weeks in summer and once a month in winter. Repot every 1-2 years in a medium to coarse moss/bark mix.

# *Cymbidium* (sim-BID-ee-um) spp.

**Common name:** Boat orchid

**Native range:** Japan, Philippines, Australia

**INTERMEDIATE**

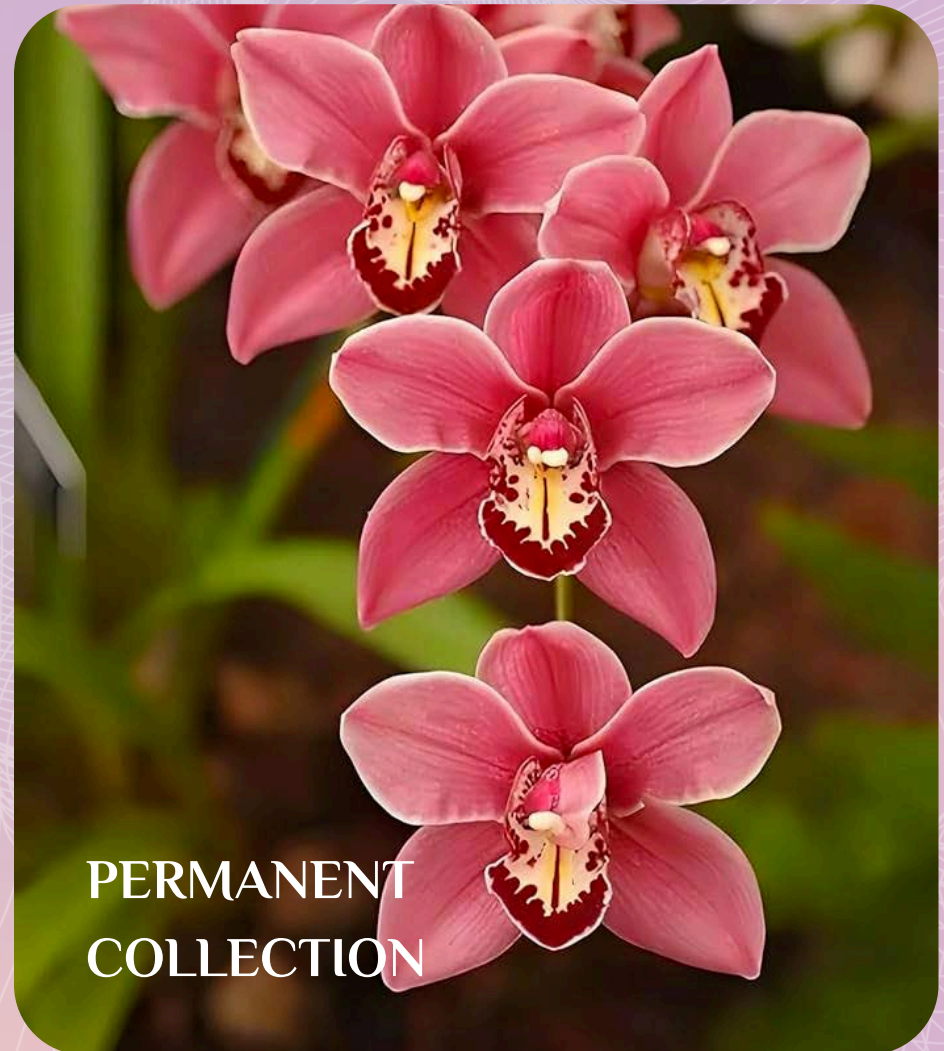

**LIGHT** Bright light to full sun from East, West or South window.

**WATER** Water heavily during summer, allow to almost dry in winter.

**CLIMATE** Prefers cool temperatures, 55° at night, no more than 75° during the day. 40% - 60% humidity.

**CARE** Fertilize with high nitrogen fertilizer between March and May. Use a balanced fertilizer between June and September. Repot every 2 years with medium grade fir bark, peat, and perlite.

**PERMANENT  
COLLECTION**

# *Dendrobium* (den-DROH-bee-um) Burana Pink

**Synonym:** *Dendrobium* Burana Pinkie

**Parents:** *Dendrobium* Daflo × *Dendrobium* Burana White

**Originator:** N. Buranaraktham, 1999

**EASY**

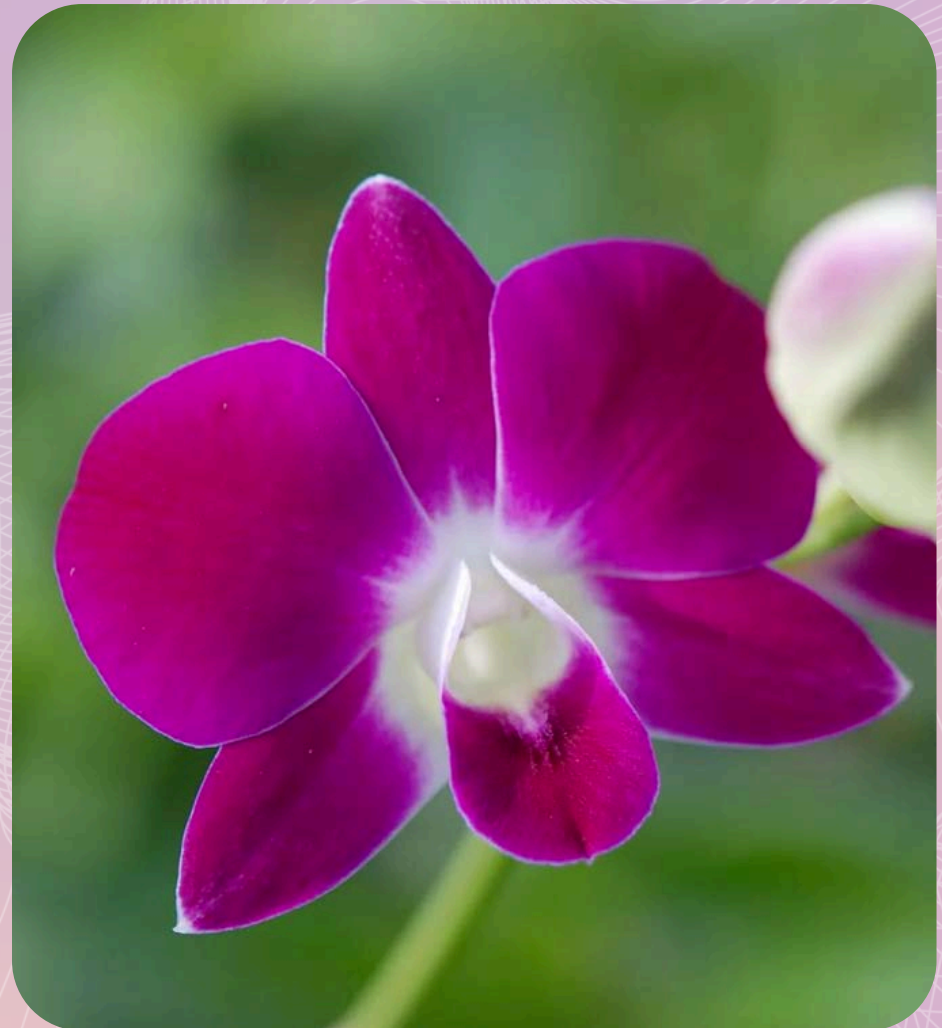

**LIGHT** Bright light from an East facing window.

**WATER** Water once a week by running tepid water through the pot. Drain well.

**CLIMATE** 60° at night, up to 90° during the day with good ventilation and humidity.

**CARE** Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Burana Red Sky

**Parents:** Not verified

**Originator:** N/A

**EASY**

**LIGHT**

Bright light from an East facing window.

**WATER**

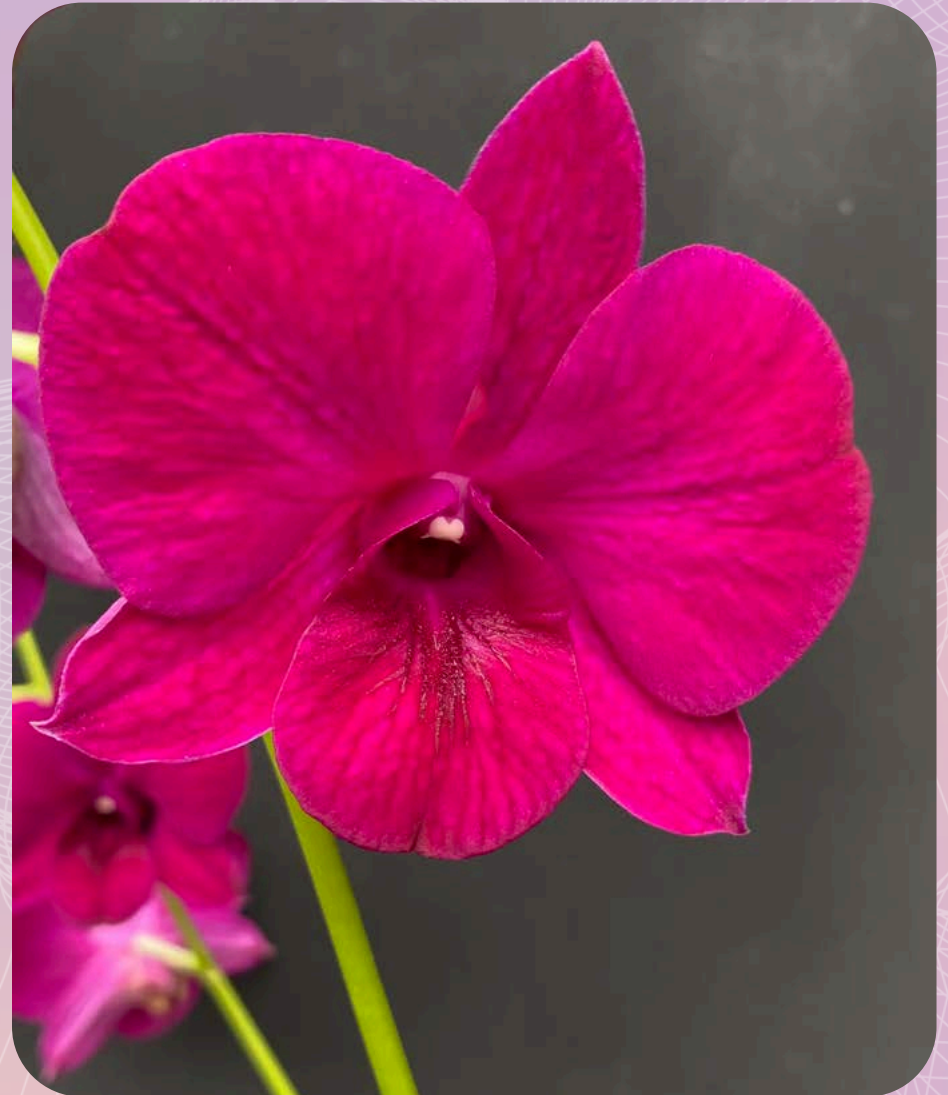

Water once a week by running tepid water through the pot. Drain well.

**CLIMATE**

60° at night, up to 90° during the day with good ventilation and humidity.

**CARE**

Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Chocolate Chip

**Parents:** *Dendrobium* Micro Chip × *Dendrobium normanbyense*

**Originator:** H & R Nursery, 2018

**BEGINNER**

**LIGHT** Bright light from an East facing window.

**WATER** Water once a week by running tepid water through the pot. Drain well.

**CLIMATE** 60° at night, up to 90° during the day with good ventilation and humidity.

**CARE** Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

**FRAGRANT**

# ***Dendrobium*** (den-DROH-bee-um) **Mini Snowflake x Nida**

**Parents:** *Dendrobium* Mini Snowflake x *Dendrobium* Nida

**EASY**

**LIGHT**

Bright light from an East facing window.

**WATER**

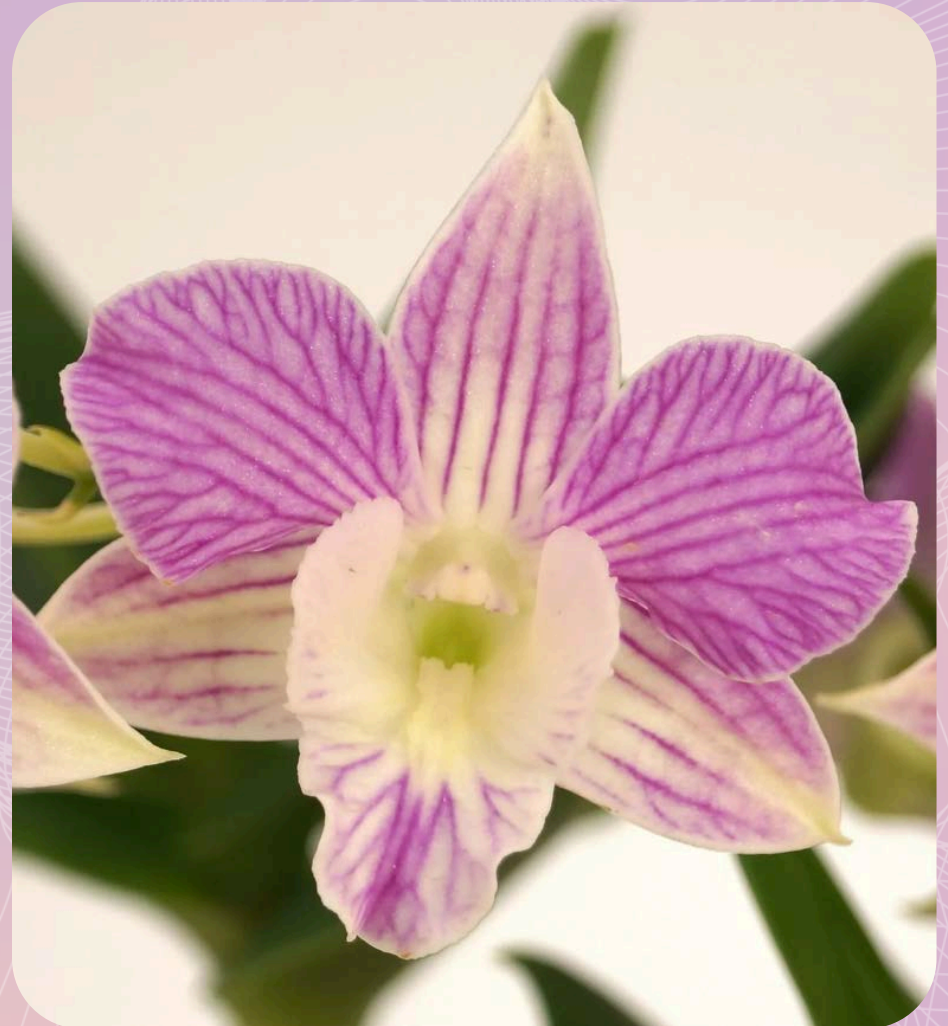

Water once a week by running tepid water through the pot. Drain well.

**CLIMATE**

60° at night, up to 90° during the day with good ventilation and humidity.

**CARE**

Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# ***Dendrobium*** (den-DROH-bee-um) Mini Snowflake x Royal Wings

**Parents:** *Dendrobium* Mini Snowflake x *Dendrobium* Nida

**EASY**

**LIGHT**

Bright light from an East facing window.

**WATER**

Water once a week by running tepid water through the pot. Drain well.

**CLIMATE**

60° at night, up to 90° during the day with good ventilation and humidity.

**CARE**

Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Red Butterfly

**Parents:** *Dendrobium* Claire x *Dendrobium* Norma Jackson

**Originator:** K. Kamiya, 1989

**EASY**

**LIGHT**

Bright light from an East facing window.

**WATER**

Water once a week by running tepid water through the pot. Drain well.

**CLIMATE**

60° at night, up to 90° during the day with good ventilation and humidity.

**CARE**

Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Red Ruby

**Parents:** *Dendrobium Nicsar* × *Dendrobium kingianum*

**Originator:** R. Gribble, 2023

**EASY**

**LIGHT**

Bright light from an East facing window.

**WATER**

Water once a week by running tepid water through the pot. Drain well.

**CLIMATE**

60° at night, up to 90° during the day with good ventilation and humidity.

**CARE**

Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Roy Tokunaga

**Parents:** *Dendrobium atrovioleaceum* × *Dendrobium johnsoniae*

**Originator:** L. Tempera, 1997

**EASY**

**LIGHT** Bright light from an East facing window.

**WATER** Water once a week. Increase to twice per week during summer.

**CLIMATE** 60° at night, up to 90° during the day.

**CARE** Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Dendrobium* (den-DROH-bee-um) Winter Pixie

**Parents:** *Dendrobium* Mini Snowflake x *Dendrobium* Micro Chip

**Originator:** H & R Nursery, 2018

**BEGINNER**

**LIGHT** Bright light from an East facing window.

**WATER** Water once a week by running tepid water through the pot. Drain well.

**CLIMATE** 60° at night, up to 90° during the day with good ventilation and humidity.

**CARE** Fertilize weakly every week and grow in a small pot. Do not remove bare canes. They provide food and are the site of new flower stalk growth.

# *Encyclia* (en-SlK-lee-ah) *tampensis*

**Common name:** Butterfly Orchid

**Parents:** Species Orchid

**Native range:** Florida, Bahamas, Cuba

INTERMEDIATE

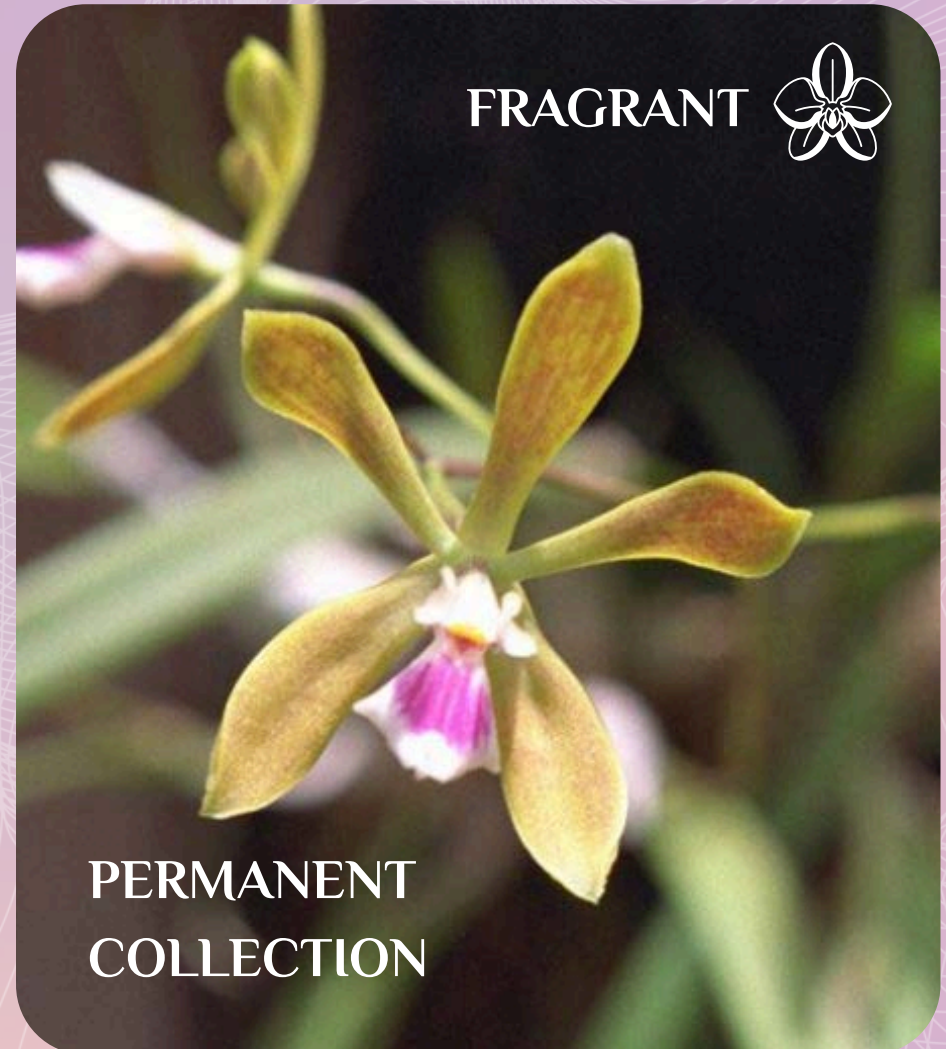

**LIGHT** Bright indirect light from an East or West facing window.

**WATER** Water three times a week in warm weather, once a week in cool weather.

**CLIMATE** 55°-70° at night, 70°-85° during the day. 50% to 80% humidity.

**CARE** Fertilize weakly once per week. Repot in bark mix, or attach to a cork board.

FRAGRANT

PERMANENT  
COLLECTION

# *Epidendrum* (ep-ee-DEN-drum) Wedding Valley

**Parents:** *Epidendrum* Princess Valley × *Epidendrum* Pearl Valley

**Originator:** M. Inamine, 2003

**CHALLENGING**

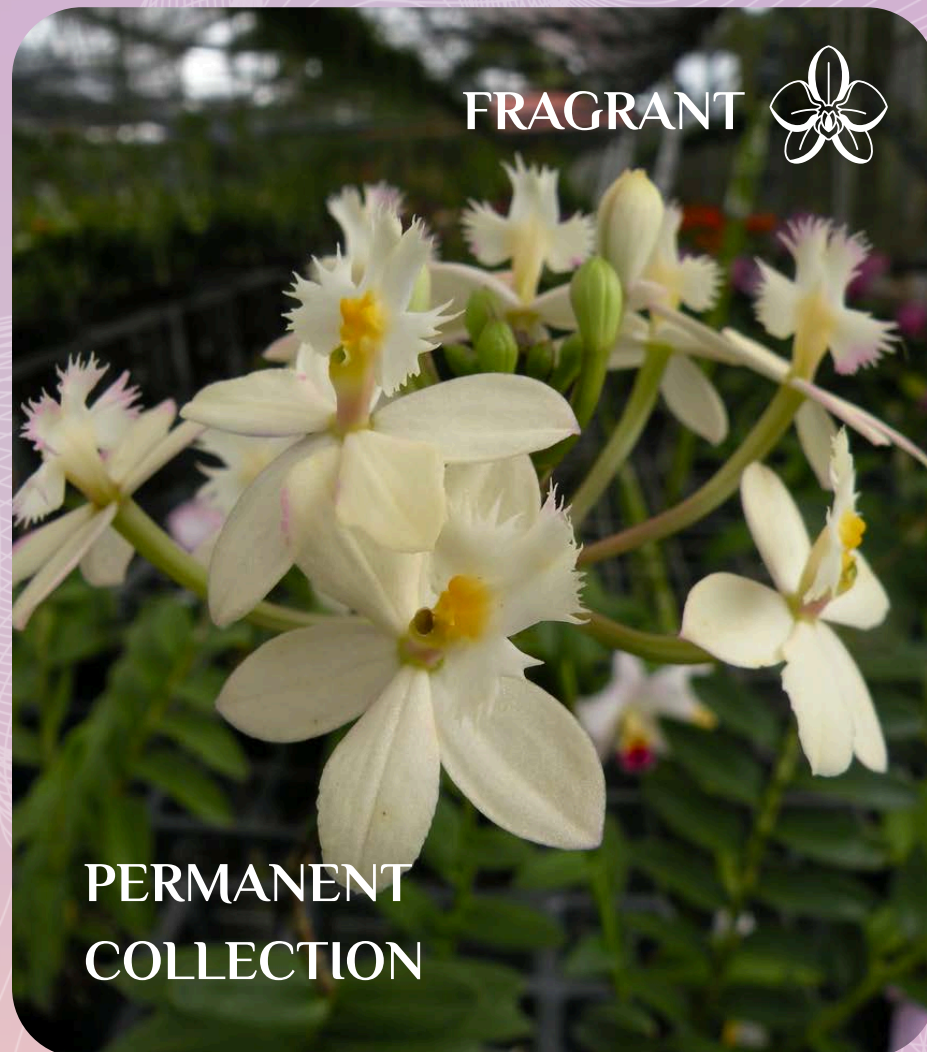

**LIGHT** Bright filtered light from an East or West facing window.

**WATER** Water once per week.

**CLIMATE** 65° at night, up to 85° during the day. 65% humidity with good airflow.

**CARE** Fertilize weakly one a month during active growth. Repot when needed in a bark/lava rock mix.

**FRAGRANT**

**PERMANENT  
COLLECTION**

# *Guaritonia* (Gwar-i-TONE-ee-a) Why Not 'Yellow'

**Parents:** *Guarianthe aurantiaca* × *Broughtonia sanguinea*

**Originator:** Stewart Inc., 1979

## INTERMEDIATE

**LIGHT** Bright light to full sun. Grows best in a South facing window.

**WATER** Water every 7-10 days with water above 50°F. Does best with a fast wet/dry cycle.

**CLIMATE** 60° - 70° at night, 70° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize every two weeks in summer and once a month or less in winter. Repot every 1-2 years in a medium to coarse moss and bark mix.

# *lanclarkara* (EE-en-clark-ar-a) Cheyenne Marie 'Lemoncello' 'Pink Ice'

**Parents:** *Pabania* Eva's Blue Amazon × *Zygolum* Louisendorf

**Originator:** Kalapana Tropicals, 2010

**EASY**

**LIGHT** Light from an East to West facing window.

**WATER** Water every 2-3 days in summer, media should be nearly dry before each watering.

**CLIMATE** 55°-60° at night, 70°-75° during the day. 50% humidity.

**CARE** Fertilize during the growing season and repot every 2 years in medium bark mix.

# *Miltonidium* (Milt-on-ID-ee-um) Pacific Ripple 'Coqui Poke'

**Parents:** *Miltonidium* Far Side x *Oncidium* Ron's Rippling Delight

**Originator:** J.W. McCully, 2005

## CHALLENGING

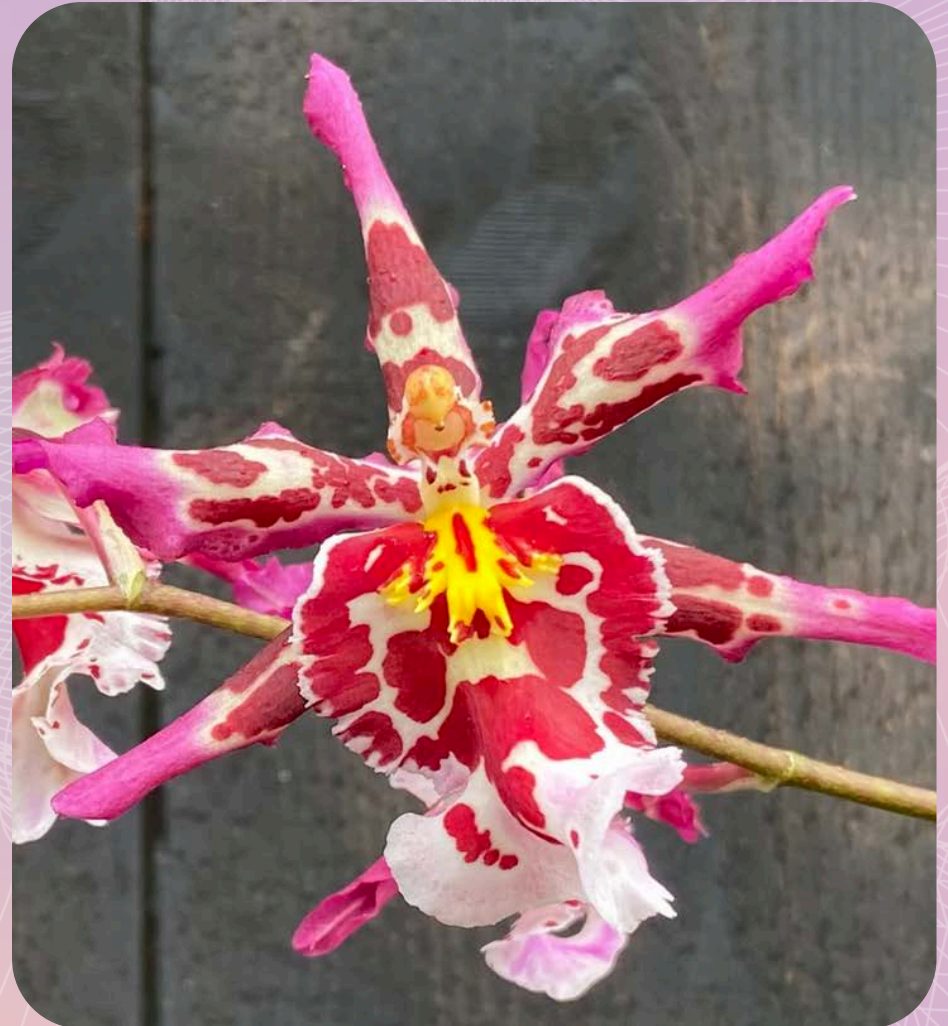

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Drench daily but then let approach dryness after.

**CLIMATE** 70°-75° at night, up to 90° during the day. Requires at least least 70% humidity.

**CARE** Flush salts once a month. Fertilize at ½ strength every two weeks in summer and once a month in winter. Repot after flowering, on slabs or shallow pan with mixture of 70% bark and 30% moss.

# *Oncidium* (on-SID-ee-um) Baby 'Raspberry Chocolate'

**Parents:** *Oncidium* Jimbo x *Oncidium* Sharry Baby

**Originator:** A. Buckman, 2008

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a sphagnum moss and bark mix.

# *Oncidium* (on-SID-ee-um) Twinkle 'Fragrance Fantasy'

**Parents:** *Oncidium cheirophorum* × *Oncidium sotoanum*

**Originator:** W.W.G. Moir, 1958

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a sphagnum moss and bark mix.

# *Oncidium* (on-SID-ee-um) Volcano Midnight 'Volcano Queen'

**Synonym:** *Oncidiota*

**Parents:** *Oncidium* Kilauea × *Oncidium* noezlianum

**Originator:** Akatsuka orchid gardens, 2009

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a sphagnum moss and bark mix.

# *Oncidium* (on-SID-ee-um) Wild Willie 'Bingo'

**Parents:** *Oncidium reichenheimii* × *Oncidium* Wildwood

**Originator:** Carter & Holmes, 2004

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a sphagnum moss and bark mix.

# *Oncidium* (on-SID-ee-um) Witches Jewel's 'Ivory Lips'

**Parents:** *Oncidium* Reversion x *Oncidium* Ron's Rippling Delight

**Originator:** J.W. McCully, 2010

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a sphagnum moss and bark mix.

# *Oncidopsis* (on-sid-OP-sis) Pacific Waters 'Paul's Pride'

**Synonym:** *Miltonidium*

**Parents:** *Oncidium* Issaku Nagata × *Miltoniopsis* Hawaiian Waters

**Originator:** J.W. McCully, 2004

INTERMEDIATE

FRAGRANT

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 80° - 85° during the day. 30% - 60% humidity.

**CARE** Fertilize once a month. Repot when needed in a lava rock and bark mix.

# *Oncostele* (on-KOH-stee-lee) Catatante 'Sunny Kalapana'

**Synonym:** *Odontocidium* Catatante 'Sunny Kalapana'

**Parents:** *Oncidium* Sphacetante x *Oncostele* Wildcat

**Originator:** J.W. McCully, 2002

## INTERMEDIATE

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Oncostele* (on-KOH-stee-lee) Everglades Elegance 'Nancy Lee'

**Parents:** *Oncidium* Colon × *Rhynchostele bictoniensis*

**Originator:** Everglades, 1992

**INTERMEDIATE** 

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Oncostele* (on-KOH-stee-lee) Eye Candy

**Synonym:** *Wilsonara* Eye Candy 'Pinkie' or *Burrageara* Eye Candy 'Pinkie'

**Parents:** *Oncostele* Catatante × *Oncidium* Barossa Delight

**Originator:** Okika, 2010

INTERMEDIATE

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Oncostele* (on-KOH-stee-lee) Hilo Firecracker 'Sangria'

**Parents:** *Oncostele* Catatante x *Oncostele* Aloha Sparks

**Originator:** J. Fang, 2010

## INTERMEDIATE

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Oncostele* (on-KOH-stee-lee) Jack McCully

**Parents:** *Oncostele* Brown Butter x *Oncostele* catatante

**Originator:** J.W. McCully, 2024

**INTERMEDIATE**

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Oncostele* (on-KOH-stee-lee) Wildcat 'Bobcat', 'Golden Red Star' and 'Red Cat'

**Synonym:** *Ondontocidum* Wildcat or *Wilsonara* Wildcat

**Parents:** *Oncostele* Rustic Bridge x *Oncidium* Crowborough

**Originator:** Rod McClellan Co., 1992

**INTERMEDIATE** 

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Water once or twice a week to keep medium slightly moist.

**CLIMATE** 55° - 60° at night, 75° - 85° during the day. 50% - 75% humidity.

**CARE** Fertilize once a month. Repot once a year and grow in a small pot. Use a rapid draining mix of bark, perlite, charcoal, lava rock, and course peat.

# *Paphiopedilum* (paff-ee-oh-PEE-di-lum) Maudiae Hybrids

**Parents:** *Paphiopedilum callosum* × *Paphiopedilum lawrenceanum*

**Originator:** Charlesworth Ltd.

INTERMEDIATE

**FACTS** Slipper orchid hybrids with spotted leaves and blooms of white, pink, or red, some with green spots.

**LIGHT** Bright light from an East facing window. No direct sun.

**WATER** Keep moist but never dry.

**CLIMATE** 60° - 65° at night, 75° - 85° during the day. 40% - 70% humidity with good air circulation.

**CARE** Repot when needed in loose, fast-draining mix of fine grade fir bark, a little charcoal and perlite.

# *Phalaenopsis* (fayl-eh-NOP-siss) spp.

**Common name:** Moth orchid

**Native range:** New Guinea, Australia, Indonesia, and the Philippines

**BEGINNER**

**LIGHT** Bright light from an East, South, or West facing window.

**WATER** Water thoroughly but allow to dry between waterings. Water in the morning to prevent rot.

**CLIMATE** Above 60° at night, 75° - 85° during the day. Keep temperatures below 55° in fall for blooming

**CARE** Fertilize every 2 weeks with high nitrogen fertilizer when in active growth. Use a high phosphorus fertilizer prior to blooming. Repot every few years in porous bark mix.

# Rhyncholaeliocattleya (rink-coh-LAE-lee-oh-kat-lee-ah) Yellow Bird

**Parents:** *Brassavola nodosa* x *Brassocattleya* Richard Mueller

**Originator:** H&R, 1990

**CHALLENGING**

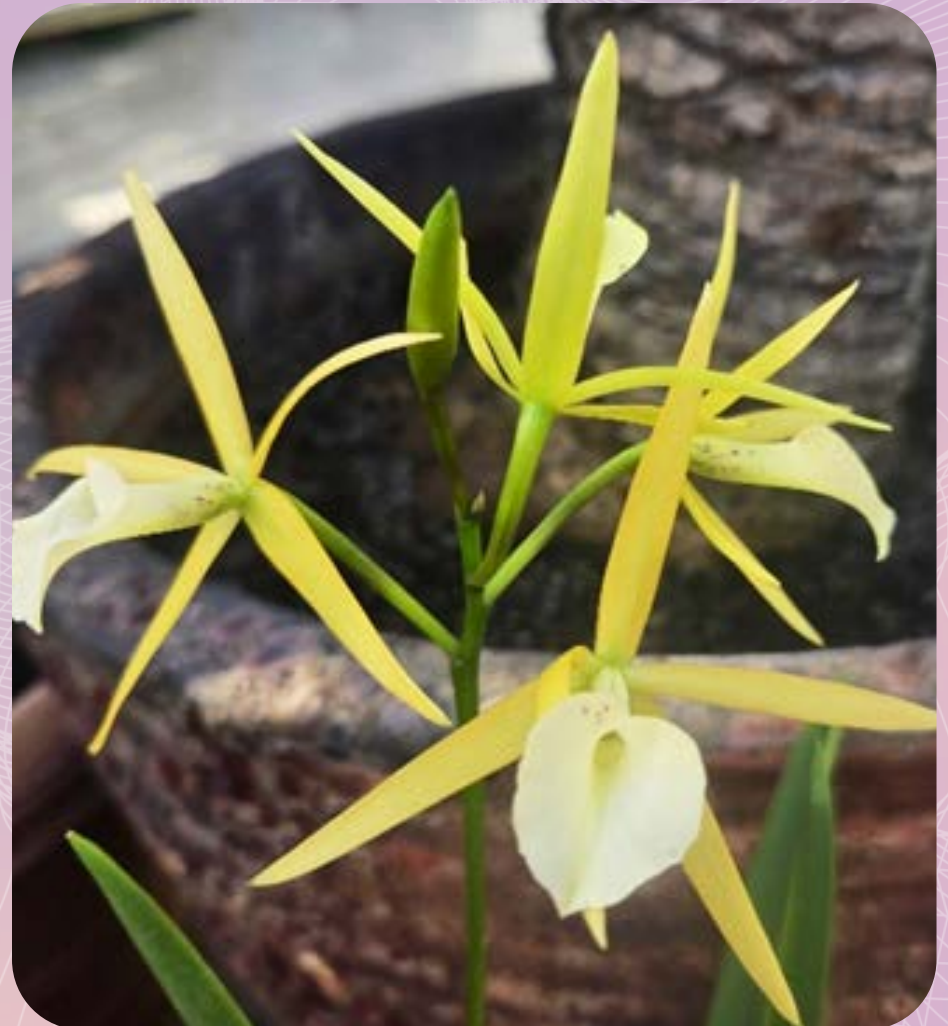

**LIGHT** Bright light from an East facing window.

**WATER** Water thoroughly daily.

**CLIMATE** Above 55° at night, 75° - 85° during the day. 60% to 80% humidity with good air circulation.

**CARE** Fertilize weekly with a weak solution. Grow in a basket with no potting medium.

# *Tsubotaara* (sue-BOH-tah-are-ah) Melinda Marie 'Blue Sapphire' 'Blue Fairy'

**Parents:** *Pabania* Eva's Blue Amazon × *Zygonesia* Cynosure

**Originator:** Kalapana Tropicals, 2010

**INTERMEDIATE**

**LIGHT** Light from East or West facing window. Can tolerate some shade.

**WATER** Water thoroughly year-round.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize at full strength in spring, summer, and fall; weakly in winter. Repot in coconut chips, bark, and perlite any season but winter. Dolomitic limestone can be applied.

# *Wilhelmara* (will-HELM-are-ah) Pinot Princess

**Parents:** *Rhynchostele bicktoniensis* x *Bratonia* Kauai's Choice

**Originator:** Okika, 2007

**INTERMEDIATE**

**LIGHT** Bright light from East or West facing window.

**WATER** Water once or twice a week during active growth, less in winter.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize weakly every two weeks throughout the year. Repot when needed in coconut chips, bark, and perlite anytime but winter. Dolomitic limestone can be applied.

# *Wilhelmara* (will-HELM-are-ah) Shibumi 'Purple Rain'

**Parents:** *Rhynchosia* Honolulu Rain × *Bratonia* Charles M. Fitch

**Originator:** J.W. McCully, 2010

**INTERMEDIATE**

**LIGHT** Bright light from East or West facing window.

**WATER** Water once or twice a week during active growth, less in winter.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Fertilize weakly every two weeks throughout the year. Repot when needed in coconut chips, bark, and perlite anytime but winter. Dolomitic limestone can be applied.

# *Zygopetalum* (zy-go-PET-uh-lum) Artur Elle

**Parents:** *Zygopetalum* Blackii x *Zygopetalum* B.G. White

**Originator:** Wichmann orchids, 1969

**INTERMEDIATE**

**LIGHT** Light from East or West facing window. Can tolerate some shade.

**WATER** Water thoroughly year round.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity

**CARE** Fertilize at full strength in spring, summer, and fall; weakly in winter. Repot in coconut chips, bark, and perlite any season but winter. Dolomitic limestone can be applied.

# *Neoregelia* (nee-oh-re-JEE-lee-ah) Ardie

**Native range:** Wild *Neoregelia* species are native to South America

**BEGINNER** 

**LIGHT** Bright light from an East or West facing window.

**WATER** Water soil every 1 – 2 months. Keep the center vase of plant  $\frac{1}{4}$  full. Flush the vase every month with clean water.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Pot in well-draining soil or pin to grow as an epiphyte. Use orchid fertilizer and mist foliage monthly.

**BROMELIAD**

# *Neoregelia* (nee-oh-re-JEE-lee-ah) Flirting

**Native range:** Wild *Neoregelia* species are native to South America

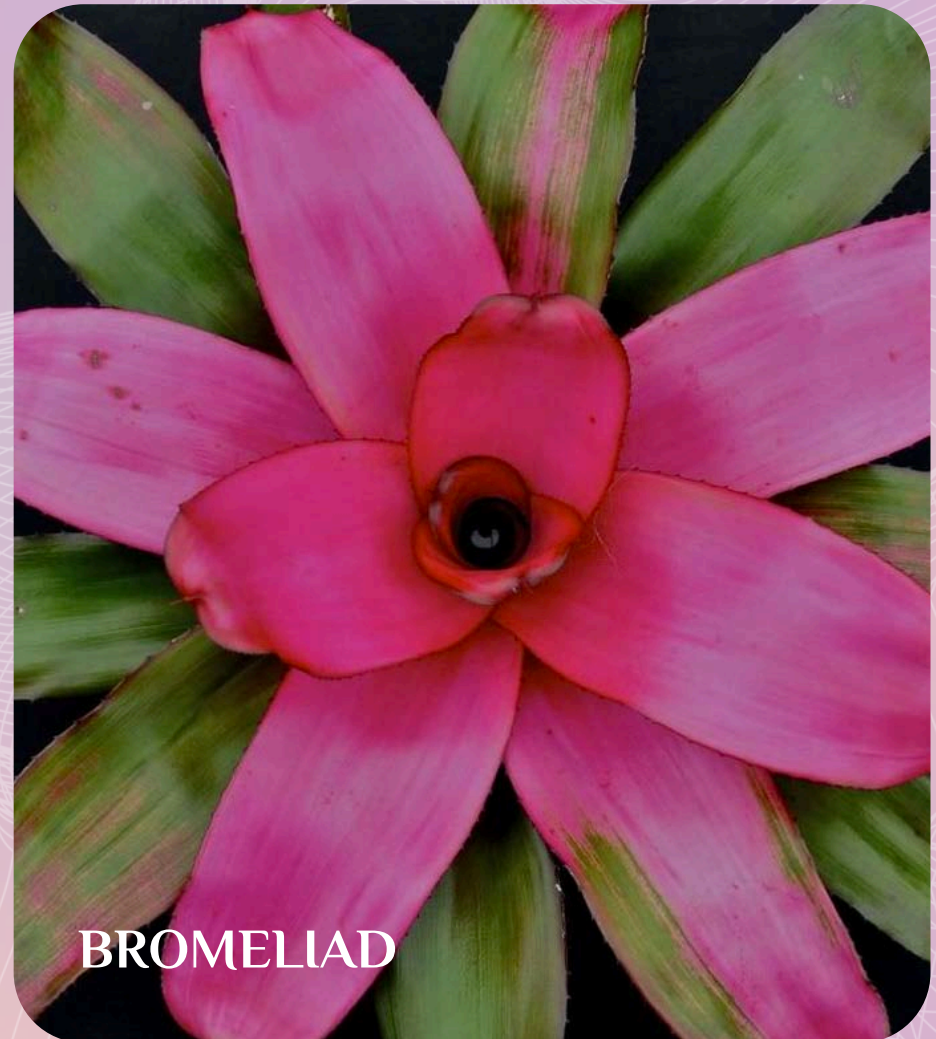

**BEGINNER** 

**LIGHT** Bright light from an East or West facing window.

**WATER** Water soil every 1 – 2 months. Keep the center vase of plant  $\frac{1}{4}$  full. Flush the vase every month with clean water.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Pot in well-draining soil or pin to grow as an epiphyte. Use orchid fertilizer and mist foliage monthly.

**BROMELIAD**

# *Neoregelia* (nee-oh-re-JEE-lee-ah) Full Moon

**Native range:** Wild *Neoregelia* species are native to South America

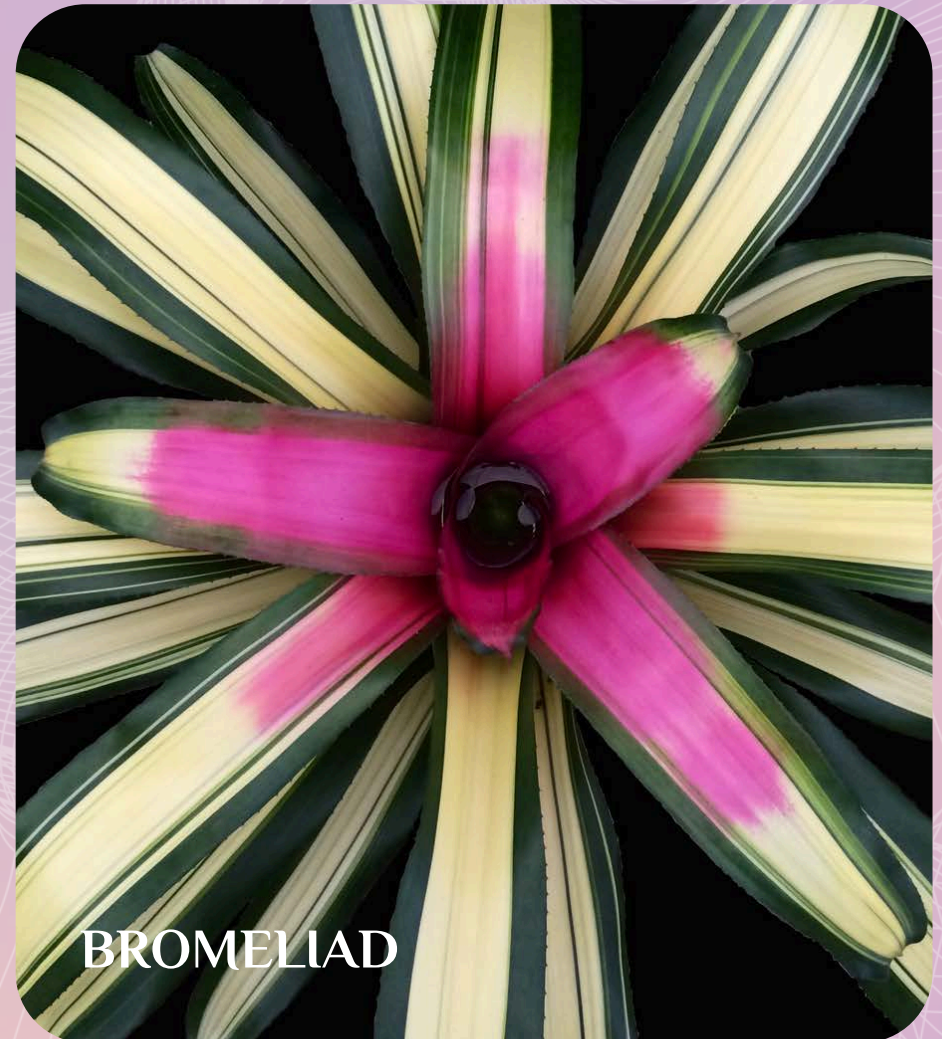

**BEGINNER** 

**LIGHT** Bright light from an East or West facing window.

**WATER** Water soil every 1 – 2 months. Keep the center vase of plant  $\frac{1}{4}$  full. Flush the vase every month with clean water.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Pot in well-draining soil or pin to grow as an epiphyte. Use orchid fertilizer and mist foliage monthly.

**BROMELIAD**

# *Neoregelia* (nee-oh-re-JEE-lee-ah) Mendoza

**Native range:** Wild *Neoregelia* species are native to South America

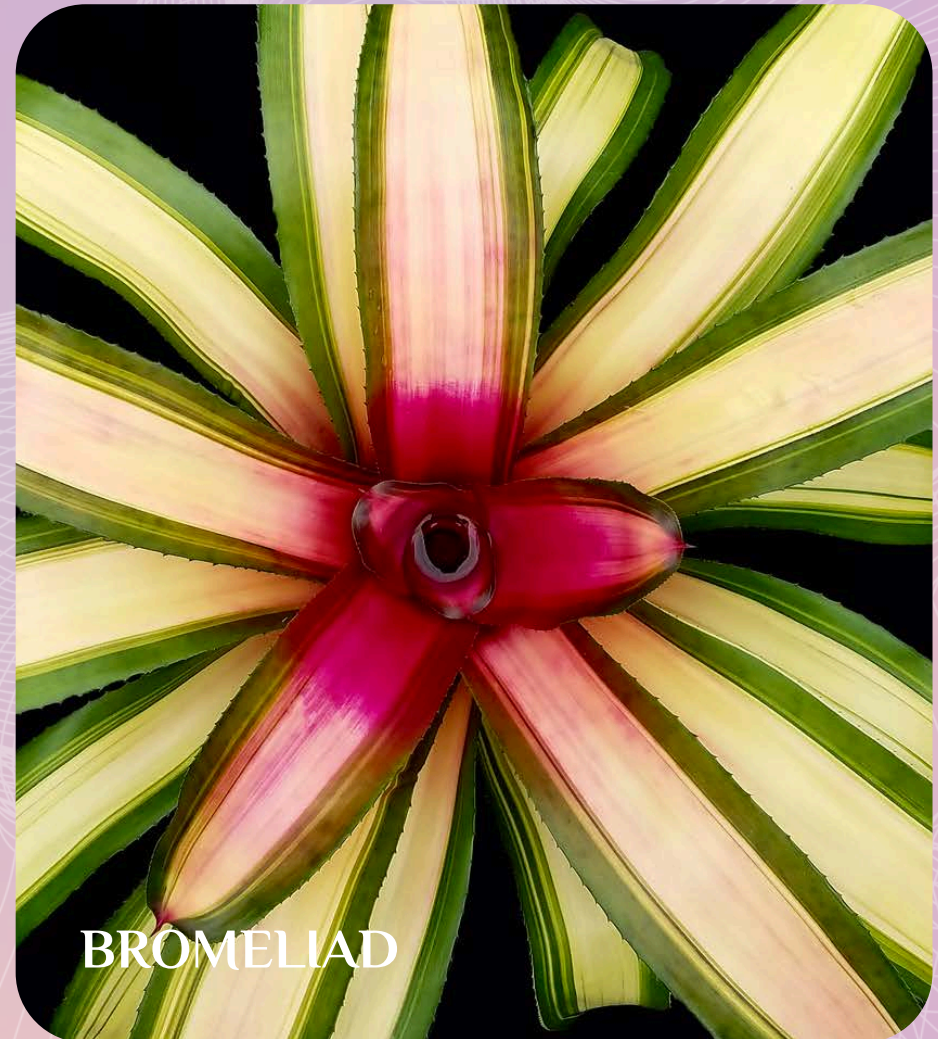

**BEGINNER** 

**LIGHT** Bright light from an East or West facing window.

**WATER** Water soil every 1 – 2 months. Keep the center vase of plant  $\frac{1}{4}$  full. Flush the vase every month with clean water.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Pot in well-draining soil or pin to grow as an epiphyte. Use orchid fertilizer and mist foliage monthly.

# *Neoregelia* (nee-oh-re-JEE-lee-ah) Full Moon

**Native range:** Wild *Neoregelia* species are native to South America

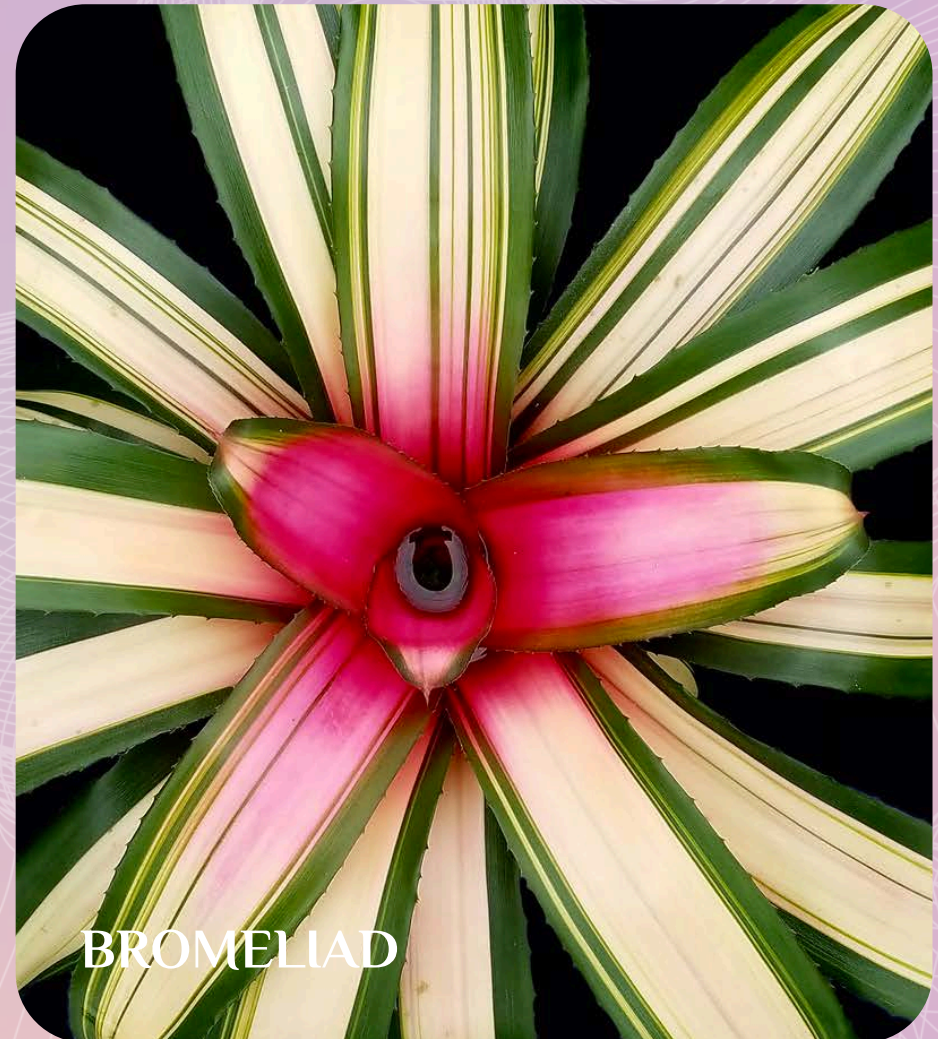

**BEGINNER** 

**LIGHT** Bright light from an East or West facing window.

**WATER** Water soil every 1 – 2 months. Keep the center vase of plant  $\frac{1}{4}$  full. Flush the vase every month with clean water.

**CLIMATE** 55° - 65° at night, 75° - 85° during the day. 50% - 80% humidity.

**CARE** Pot in well-draining soil or pin to grow as an epiphyte. Use orchid fertilizer and mist foliage monthly.

**BROMELIAD**
