Glass in Flight Dedication Opportunities **May 16 – November 1**

Honor a loved one or celebrate life's milestones like birthdays, anniversaries, retirements, and graduations with a seasonal sculpture dedication in *Glass in Flight*. This stunning exhibition features 30 stained-glass and steel creations by artist Alex Heveri, including shimmering hummingbirds, butterflies, and dragonflies. Your dedication creates a lasting tribute that visitors will admire throughout summer and fall in the Garden. Each sculpture is individually numbered and corresponds with a map provided on the last page for easy reference.
